Rome Gearbox's

Rome offers New complete gearbox's and rebuilding services for all Weiler style grinders. Rome's gearbox cases are made of cast steel which give it more strength and allows for rebuilding of case flanges in the event that there is major bearing wear. All gearbox's come standard with class 10 gears for better strength, and are epoxy painted.

Complete rebuilding services are available for all Weiler style Gearbox's, along with complete repair kit's. Repair kits are available with or without main shafts.
